

EDUCATION FOR SUSTAINABLE DEVELOPMENT AND GLOBAL CITIZENSHIP

Oftentimes young people have only been perceived as learners, but considering their distinct spheres of action in terms of social, economic and educational aspect within the society, they should be recognized as essential agents of change, as leaders, educators, advocates and learners.

The Gulmohar Foundation is committed to empowering youth by providing a platform where young people can meet, share, and work together to drive sustainable changes in different dimensions of the society.

We are looking forward to enhance the capacity of Kerala's youth leaders by facilitating dialogues, sharing good initiatives and practices, building communities, and strengthening advocacy skills to build leaders who drive our society in the coming future.
